

I urge the FCC to reject the NAB's petition 04-160 and allow XM the ability to provide the kind of programming that I have purchased. XM is not a free service and therefore should not be banned. I travel 3 hours a day round trip to work and rely on XM to keep me abreast of any traffic or weather related problems during my drive.

Again, this service is not free. It is beyond me why the most important services offered to me though XM would be banned.
